• Quick Solution for LPG Business

- o Flexfill is ready to use, just connect to the electric main and switch on.
- o Ideal for a new starting business.
- o Effective during maintenance and shut-off periods.
- o Includes all necessary machinery, piping and wiring.
- o Flexfill can be transported to anywhere. For mobile operation we advise the option Flexfill mobile.
- o Fits inside a 20' container.

Capacities

Tank capacity	16 m ³
Dispensing capacity	60 L/min
Cylinder filling (*)	50 cylinders/hr
LPG pump	3 - 4,5 m ³ /h 5,5 - 8,4 bar (diff.)

Standard Package

LPG storage tank, equipped with baffle plate	1 pc	16 m ³
LPG dispenser	1 pc	Single hose
LPG cylinder filling scale (*)	1 pc	50 cylinders/hr
Side channel LPG pump	1 pc	3-4,5 m ³ /h
Air compressor	1 pc	2 Nm ³ /hr
Electric panel, ex-proof	1 pc	230/400 V 50 Hz
Light fixture, ex-proof	1 pc	60 W / 9-11 W
Gas detector	2 pcs	Ex-proof
Sunshade	1 pc	Aluminum
Fire extinguisher	2 pc	6kg

(*) The given capacity is for one filling scale, for domestic cylinder with 10 - 13 kg. gas capacity. For filling camping or industrial cylinders more filling capacity will be proportional to the gas weight.

Options

1	Package with one filling scale, without dispenser
2	Package with two filling scales, without dispenser
3	Package with double hose dispenser, without any filling scales
4	Extras for Flexfill Mobile; Electronic filling scale, truck meter resistant to road conditions, extra strong chassis
5	Voltage/frequency other than 230-400 Volt 50 Hz
6	Protective aluminum cabinet with lock
7	One pair of 2" LPG hoses, 6 m length, both ends with ACME 3 1/4" couplings

• Safety

- o Flexfill is engineered and constructed according to NFPA 58
- o All electric equipment of Flexfill has ATEX certification

• Quality

- o Equipment and machinery conforms the EU standards and has CE markings

• Experience

- o Performance of the machinery and equipment of Flexfill has proven by LPG industry
